

WHITE PAPER NORTHBOUND

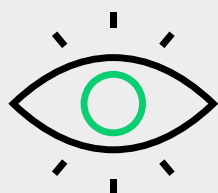

INTRODUCTION

Welcome to the world of NorthBound!

NorthBound is more than just an NFT project – it's a vibrant community built on fun, innovation, and premium market insights. Launching on the Abstract blockchain in Q1 2025, it features 3,333 unique and humorous Eskimo-themed NFTs.

Our goal is to provide members with top-tier alpha calls, exclusive whitelist opportunities, and a supportive network, all powered by Abstract's advanced technology.

NorthBound was founded by NorbertF, a seasoned NFT alpha caller and content creator known for his accurate and valuable market analyses. His expertise, along with the work of a talented team, forms the solid foundation of our community.

PROJECT VISION

NorthBound is a platform that bridges the digital and real worlds. Our goal is for owners not only to hold unique, humorous Eskimo-themed NFTs but also to become part of a community that creates real value.

The project focuses on innovation and experiences. Owning a NorthBound NFT grants exclusive benefits such as premium alpha calls, whitelist opportunities, and specialized tools like the Sales Alert bot, which tracks all blockchain networks, ensuring that users always stay at the forefront of the Web3 space.

But this is just the beginning. We are developing a cutting-edge AI Trading & NFT Sniping Agent that will revolutionize the trading experience, enabling fast and intelligent decision-making in the market. Additionally, our long-term vision includes launching a premium winter clothing brand that brings the spirit of NorthBound into the real world.

NorthBound is a symbol of creativity, innovation, and community spirit – a journey you can be part of. Join us and help build the future together!

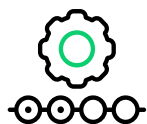

TOKENOMICS

The NorthBound NFT collection will be released with the following parameters, ensuring fair access and value for the community.

Total Supply and Price

- ▶ Total NFTs: 3,333 unique, funny Eskimo NFTs.
- ▶ Mint price: TBA

Mint Phases

Guaranteed Whitelist Access:

For community members selected through collaborations and WL giveaway winners.

FCFS (First-Come, First-Serve) Phase:

For community members selected through collaborations and WL giveaway winners.

Public Mint:

The public minting phase will be the final stage where anyone can access the remaining NFTs if available.

Claim:

An exclusive opportunity for the 110 NFTÉR NFT holders to mint 1 NFT for free, plus 10 additional spots reserved for the NorthBound Discord contest.

Utility

NorthBound NFT holders will enjoy numerous exclusive benefits, including:

- High-quality alpha calls provided by an experienced team of alpha callers, along with daily whitelist opportunities across various blockchains.
- Exclusive access to the Sales Alert bot and other specialized tools that enhance efficient and intelligent trading.
- Early access to the cutting-edge AI Trading & NFT Sniping Agent, which is currently in development and will revolutionize the trading experience in the future.

ROADMAP

The development of the NorthBound project is divided into multiple phases, ensuring continuous value creation and community engagement.

Phase 1 NFT Minting and Community Building

- ▶ Minting the 3,333 NorthBound NFT collection.
- ▶ Launching community events and activities on Discord and Twitter.
- ▶ Providing quality alpha information with the support of an experienced team of alpha callers, complemented by the Sales Alert bot and daily whitelist opportunities for holders. Laying the foundation of the NorthBound community to create a strong and supportive network.

Phase 2 AI Trading & NFT Sniping Agent

- ▶ Introducing the NorthBound AI Trading & NFT Sniping Agent, a powerful tool designed to identify the best NFT opportunities, track top traders, and execute auto-bidding and auto-minting strategies for more efficient trading. This advanced system continuously analyzes market trends, detects undervalued assets, and optimizes transactions in real-time.

Phase 3 Clothing Brand Development

- ▶ Introducing the NorthBound winter clothing collection, including jackets, hats, hoodies, and T-shirts.
- ▶ Making products available to NFT holders as airdrops or at a discounted price.
- ▶ Launching the brand in the European market and collaborating with relevant partners for expansion.

TEAM

A dedicated and experienced team stands behind NorthBound, working to provide the best experience for the community. From the founders to the collab managers and moderators, everyone plays an important role in the success of NorthBound.

Founder

NorbertF (<https://x.com/NorbertF76>) – With experience in the NFT world since 2020, actively building communities and launching projects. Also serves as an alpha caller and content creator for several major NFT projects, contributing to their success.

Having experienced both the good and bad sides of the NFT world, these experiences led him to create NorthBound. His goal is to build a community that can learn from these experiences and create real value.

Additional Team Members

Collab Managers: Responsible for whitelist collaborations and bringing in strategic partners.

Moderators: Ensure that the community remains active, supportive, and safe for all members.

Alpha Callers: A continuously growing team providing valuable alpha information, exclusive updates, and insightful analyses for the community.

EXPERIENCE & ACHIEVEMENTS

Founder NorbertF launched the NFTÉR project (<https://magiceden.io/marketplace/nfter>) for the Hungarian NFT community two years ago. Since then, this community has grown continuously, and the NFTÉR NFT collection has gained increasing attention. This foundation ensures the professional background and innovative approach of the NorthBound project.

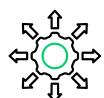

Utility

Owning NorthBound NFTs not only enriches you with unique digital assets but also provides numerous exclusive benefits, keeping you one step ahead in the Web3 world.

Quality Alpha Calls

Daily updated alpha calls compiled by our professional alpha caller team to help community members find the best opportunities.

Daily Whitelist Opportunities

Exclusive whitelist opportunities provided through collaborations. These opportunities are shared on dedicated channels reserved for owners.

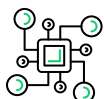

Sales Alert Bot

An intelligent Sales Alert bot that monitors all chains and sends hourly notifications about relevant sales events, helping owners make informed decisions.

NorthBound AI Agent

An AI-powered tool that analyzes NFT and crypto market trends in real-time, identifies sniping opportunities, and automates bidding and minting.

Community Access

Dedicated Discord channels and exclusive events for NFT holders to be part of a supportive and active community.

Winter Clothing Collection

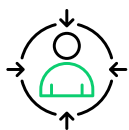

Airdrops and discounted purchasing opportunities for NFT holders from the NorthBound winter clothing collection, including jackets, hats, hoodies, and T-shirts.

INTRODUCTION TO THE ABSTRACT BLOCKCHAIN

The NorthBound project has chosen the Abstract blockchain as its foundation, designed specifically to support consumer-focused cryptographic applications. Abstract is an Ethereum-based Layer 2 (L2) network that offers low transaction fees and fast processing speeds, making it an ideal platform for user-friendly applications.

Why Abstract?

Consumer Focus

Abstract aims to make blockchain technology accessible to everyday users by providing a simple and intuitive experience.

Scalability and Low Costs

By using ZK-rollup technology, Abstract can handle a large number of transactions with low fees, which is particularly important for applications targeting a broader audience.

EVM Compatibility

Abstract is fully compatible with the Ethereum Virtual Machine, enabling easy migration of applications built on Ethereum to the Abstract network.

Innovative User Experience

With the introduction of the Abstract Global Wallet (AGW), the platform eliminates the need for traditional seed phrases and complex setups, allowing users to join the ecosystem easily using email, social accounts, or passkeys.

NorthBound is committed to providing the best technological foundation for its community, and the selection of the Abstract blockchain reflects this commitment. The advantages offered by Abstract enable us to offer a secure, fast, and user-friendly platform that meets the requirements of modern cryptographic applications.

NORTHBOUND

FREQUENTLY ASKED QUESTIONS (FAQ)

What is NorthBound, and why should I join?

NorthBound is an innovative NFT project on the Abstract blockchain, offering 3,333 unique and funny Eskimo NFTs. The project aims to provide value to NFT owners through quality alpha calls, whitelist opportunities, and exclusive community experiences. By joining, you become part of a supportive and dynamic community.

What benefits come with owning a NorthBound NFT?

NFT holders enjoy the following benefits:

- ▶ Quality alpha calls and daily whitelist opportunities.
- ▶ Access to the Sales Alert bot, wallet tracking, and daily analysis.
- ▶ Early access to the NorthBound AI Trading & NFT Sniping Agent in development.
- ▶ Exclusive access to the winter clothing collection through airdrops or discounts.

When does minting start, and how can I participate?

The exact minting date will be announced soon. The VIP minting phase and guaranteed whitelist access ensure community members get the first chance to mint NFTs, followed by the FCFS (first come, first serve) phase and public minting.

Why did you choose the Abstract blockchain?

The Abstract blockchain provides low costs, fast transactions, and a user-friendly experience. Abstract is EVM-compatible and offers modern solutions like the Abstract Global Wallet for simple and secure access.

Will there be staking or a token-based economy?

Currently, there are no plans to introduce staking or a token-based economy, as the project focuses on delivering direct value to NFT owners through alpha calls, whitelist opportunities, and community benefits.

What are the long-term plans for the project?

NorthBound will be developed in several phases:

- ▶ **Short-term:** Minting NFTs, alpha calls, and community events.
- ▶ **Mid-term:** Launching the NorthBound AI Trading & NFT Sniping Agent
- ▶ **Long-term:** Launching the winter clothing brand

How can I join the community?

Join us on Discord and Twitter, where you'll find up-to-date information about the project, participate in giveaways, and connect with other members of the NorthBound community.

NORTHBOUND

CLOSING REMARKS

NorthBound is more than just an NFT project – it's a community, a movement that celebrates innovation, creativity, and collaboration. Built on the Abstract blockchain, NorthBound connects the digital and real worlds through the cheerful universe of Eskimos, while creating real value for its members.

This is not just an opportunity to own a unique NFT but to become part of a community that supports growth and long-term success. Premium alpha calls, exclusive whitelist opportunities, the NorthBound AI Trading & NFT Sniping Agent in development – designed to automate trading and sniping strategies – and a premium winter clothing brand are all elements created to provide the best experience for our holders.

But this is just the beginning. The world of NorthBound will continue to expand, and you can be part of shaping this story. Join us, become a member of our community, and let's explore the future together!

Welcome to the world of NorthBound – where opportunities are limitless!
